Section C

Questions in Section C measure their beliefs and attitudes about school culture and climate.

Using the numbers that correspond to the answers (Never = 1, Sometimes = 2, etc.) add to find the total of all student responses.

It is preferable that students respond "Sometimes-Most of the Time" with statements 26-35

- Add the totals for these items, and divide by 10 for the average.
- The lower the average (< 2), the more negative the opinion of the school culture and climate.
- The higher the number (> 2), the more positive the opinion.
