

2017/18 is my second year using the Lions Quest program. I feel this program has really opened up the door in my classroom to meaningful conversations that I may never have "fit in" without dedicating my time and energy into this wonderful program.

I teach 6th grade special education and my students have a difficult time expressing their ideas and emotions. Lions Quest provides a safe platform to base our conversations on. Ticklers and energizers lighten the atmosphere before digging deeper and the kids LOVE them!! My students look forward to Monday mornings and the Lions Quest program. I too enjoy how this program has helped me to understand my students on a much deeper level!
