

## 4.6 FAMILY CONNECTION!

**FAMILY MEMBERS READ THIS:**  
Your child participated in a mock hearing about the harmful effects of drugs. Help your child appreciate the hazards of drug use by conducting a similar hearing at home.

# Home Court

### LET'S DO THIS!

Tell your family about the class hearing. Ask: What decision would our family court make about drug use?

## COURT IS NOW IN SESSION

### REMEMBER TO

- provide basic information about the drug.
- provide testimony on how the drug affects the user, family and friends, and the community.

After conducting a family court hearing on drug use—or discussing the class hearing and talking about the ill effects of drugs with family members—answer the questions below:

What process did your family court follow? If your family did not conduct a hearing, what did you discuss?

What roles did your family members play in the court hearing? How did they respond to questions about the effects of drug use?

What do you think you learned from the class hearing and your family discussion?
